FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Mental Health (DMH)** stated the bill does not require any actions from, nor give any responsibilities to, the DMH, other than requiring the Director of the DMH to be a member of the established Commission. Therefore, there is no impact to the DMH.

Officials from the **Office of State Courts Administrator, Department of Social Services - Research and Evaluation Unit, and Missouri Highway Patrol** stated the proposed legislation will not have a fiscal impact on their agencies.

Officials from the **Department of Elementary and Secondary Education (DES)** stated the proposal establishes the "Juvenile Information Governance Commission" which shall include the commissioner of education as a member. The commission shall authorize information to be shared between executive agencies and juvenile and family divisions of the circuit courts pursuant to section 210.865. The DES officials stated that depending on the actions of the committee, unknown costs may be incurred by the DES to address technical and policy issues associated with information sharing, communication, development, and implementation.

Officials from the **Office of Administration - Office of Information Technology (OIT)** assume that there will not be extensive travel associated with this proposal and as such, there will be no fiscal impact to their organization.

Officials from the **Department of Health (DOH)** stated this legislation is not expected to fiscally affect the DOH.

Oversight cannot predict what the Juvenile Information Governance Commission will require the individual state agencies to provide in terms of information, personnel or equipment resources. Oversight notes the fiscal impact will be subject to the recommendations of the Juvenile Information Governance Commission. There will be no costs to state or local governments for the Commission itself. The fiscal impact would be based on the recommendations of the Commission, which are unknown at this time but would be subject to appropriations before the costs are incurred.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

DESCRIPTION

This proposal creates the Juvenile Information Governance Commission. The Commission is to authorize juvenile information to be shared between executive agencies and juvenile and family divisions of the circuit courts. In addition, the Commission is to provide vision, strategy, policy approval and oversight for development and implementation of agency and juvenile and family court information sharing. The Commission shall transmit an annual report summarizing the commission's findings to the General Assembly beginning January 1, 2002.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
